

VENSYSCO: DELIVERING SPECIALISED MEDICAL PRODUCTS

Vensysco is one of the leading organisation supplying **specialised medical products ranging from personal protective gears to face masks**. With our team of experts and extensive research facilities, we aim to bring together developed technologies with the manufacturing processes to generate medical products of utmost quality. Established in 2010, our expertise is supported by an extensive manufacturing facility and country-wide presence making us capable of delivering

large scale orders of protective medical equipment including masks, gloves, gears, medical & PPE kit.

Realising its responsibility towards nation, Vensysco has extended its effort to fulfil the need of surged demand of above items to ensure the safety of our healthcare workers and making modest contribution to India's fight against COVID-19.
